

# THE SHORT STORY OF CO(MIC)ACCESSIBILITY

BY VASILEIOS MILIAS

## CHAPTER 1 – SOMETHING IS MISSING

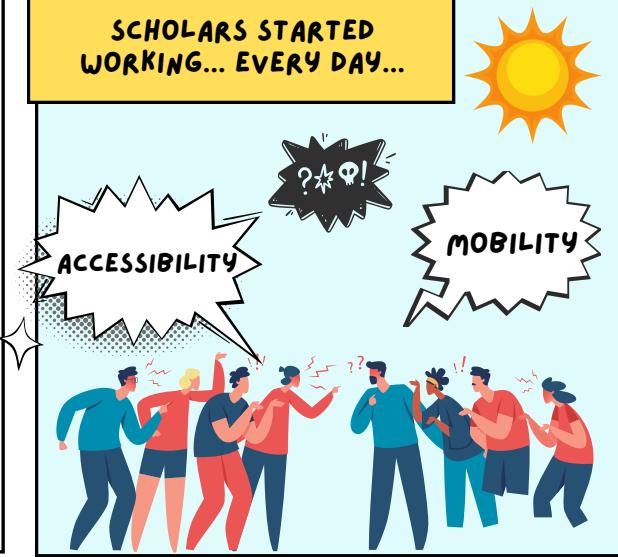

MANY YEARS AGO...

LET'S START THE RESEARCH!

SCHOLARS STARTED WORKING... EVERY DAY...

...AND EVERY NIGHT...

...UNTIL ONE DAY...

...THEY DID IT!

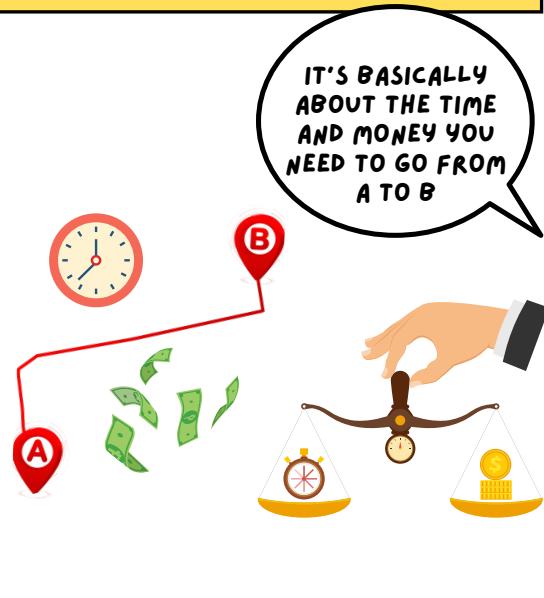

BUT WHAT IS ATTRACTIVENESS?

ATTRACTIVENESS OF A PLACE CAN BE MANY DIFFERENT THINGS...

AND THE TRAVEL COST?

SO NOW IMAGINE A WORLD WITH IDEAL ACCESSIBILITY...

HOW WOULD THIS LOOK LIKE?

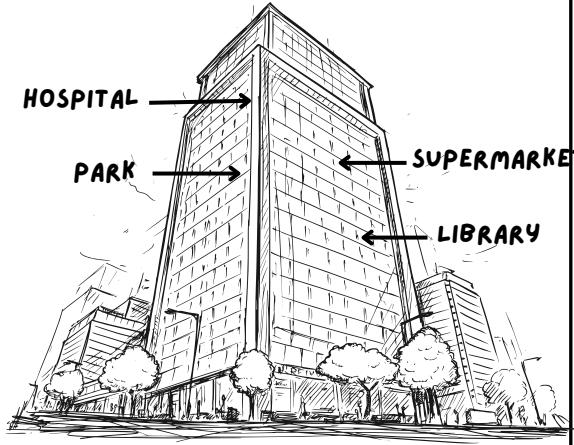

LET'S GO BACK AT OUR FORMULA

SO, IMAGINE EACH PERSON LIVING IN A TALL BUILDING WITH MANY FLOORS

EACH FLOOR HAS A GROUP OF AMENITIES PERFECTLY TAILED TO THE NEEDS OF THE RESIDENT

WE ACCOMPLISHED MAXIMUM ACCESSIBILITY!!!!

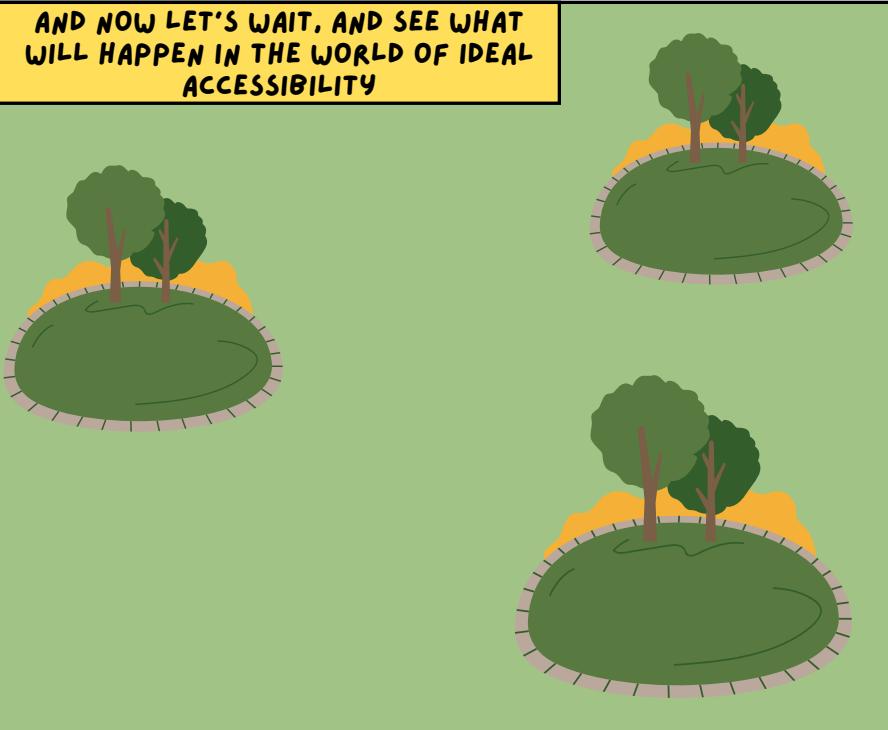

MAXIMIZED SINCE EVERY AMENITY IS TAILED TO EACH RESIDENT

MINIMIZED SINCE IT IS ALMOST 0 NOW

AND NOW LET'S WAIT, AND SEE WHAT WILL HAPPEN IN THE WORLD OF IDEAL ACCESSIBILITY

SSSH ! PEOPLE ARE APPROACHING..DON'T SCARE THEM AWAY ...

AND...IT'S WORKING!!!

...5 MINUTES LATER...

THE PARK IS AMAZING BUT I NEED OTHER PEOPLE

HELLO DARKNESS MY OLD FRIEND...

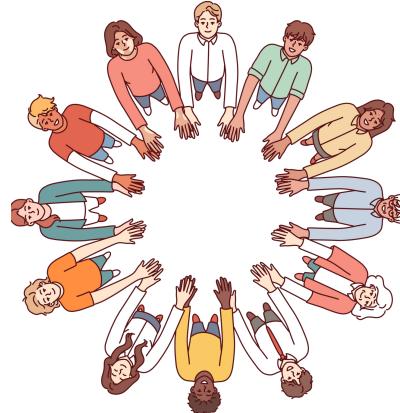

BACK AGAIN...SOMETHING IS MISSING

~~THIS IS WHAT WE NEED TO DO!~~

~~ATTRACTIVENESS → MAXIMIZED~~  
~~TRAVEL COST → MINIMIZED~~

PEOPLE ARE SOCIAL BEINGS...AND CITIES SHOULD PROMOTE THEM TO INTERACT WITH EACH OTHER

SO WHAT IF WE TOOK THAT AS WELL INTO ACCOUNT...

WHAT IF WE ALSO CONSIDERED THE NUMBER AND CHARACTERISTICS OF PEOPLE WHO HAVE ACCESS TO EACH PLACE?.

# WELCOME TO CO-ACCESSIBILITY
